ASSKOUR Mohamed

Engineering Student in Ubiquitous and Distributed Systems - Cloud and IoT

asskourmohamed1@gmail.com Asskour Mohamed +212 6 57 74 04 54
asskourmohamed Born on October 31, 2004 in Agadir, Morocco

Second-year engineering student specializing in Ubiquitous and Distributed Systems , seeking an internship in Cloud and DevSecOps. Passionate about cloud technologies, DevOps practices, IoT and building scalable systems.

Education

Engineering Degree Program – National Institute of Posts and Telecommunications (INPT) Sep. 2024 – Present
Ubiquitous and Distributed Systems Engineering - Cloud & IoT *Rabat*

Preparatory Classes for Engineering Schools (CPGE) Sep. 2022 – May 2024
Mathematics, Physics, Engineering Sciences *Agadir*

International Baccalaureate, French Option (BIOF) June 2022
Mathematical Sciences (A) *Agadir*

Professional Experience

SII Group June 2025 – August 2025
DevOps / Software Intern *Casablanca*

- Developed a web application for sharing experiences, projects, and skills within the company using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implemented an automated CI/CD pipeline for continuous deployment of the front-end (React) and back-end (Node.js) using GitLab CI, ensuring fast and reliable deployments, and containerized the application with Docker.

Projects

SignBridge | *Python, Django, MYSQL, Bootstrap, MediaPipe, TensorFlow/PyTorch, OpenCV.* January 2026

- Developed a web platform for bidirectional translation between Sign Language and Text with interactive learning features.
- Implemented a real-time sign recognition module using MediaPipe and Machine Learning models.
- Designed a Text-to-Sign module generating animations through a 2D avatar.
- Django MVT architecture with a dedicated Flask microservice for Machine Learning processing.

Certifications

- Meta Front-End Developer
- Meta Back-End Developer
- Oracle Cloud Infrastructure 2025

Skills

DevOps Tools: Git, GitHub, GitLab CI/CD, Docker
Cloud Computing & Virtualization:: AWS, Google Cloud, VMware ESXi, OpenStack, IaaS, PaaS, SaaS, FaaS
Programming Languages: Python, Java, JavaScript, C ,C++
Frameworks: React, NodeJS, Django ,HTML, CSS
Operating Systems: Linux, Windows
Networking: TCP/IP, HTTP, DNS, OVS, VPN
Databases: MySQL, MongoDB, PostgreSQL
Artificial Intelligence: Machine Learning, Deep Learning, Data Mining, TensorFlow, PyTorch

Extracurricular Activities

Electronics and Embedded Systems Club (CESE) Sept 2025 – Present
Head of Artificial Intelligence Unit *INPT*

- Organized AI workshops, including lectures and hands-on labs.
- Mentored and trained club members for competitions and hackathons.

Languages

- French :Fluent
- English :Proficient
- Spanish :Beginner
